Threat actors and malware

[Massive DDoS Attack Disrupts Ubuntu's Canonical Websites and Security APIs](#)

Cyber Security News - 13 October 2026 05:09

Canonical, the company behind Ubuntu Linux, suffered a sustained distributed denial-of-service attack on October 8, 2026, disrupting its main websites and security information services.

[LG webOS Flaws Let Remote Attackers Execute Commands as Root Without Authentication](#)

Cyber Security News - 13 October 2026 04:07

Scottish
Cyber
Coordination
Centre

Security researchers have disclosed four serious vulnerabilities in LG webOS smart TVs that could allow an attacker to bypass authentication, create a privileged account, and ultimately execute commands with root-level access.

Help the NCSC understand how organisations approach external attack surface risk

NCSC - 12 October 2026 13:00

We're looking to hear from people involved in evaluating, selecting or adopting EASM.

Cyberattack shuts down refrigerators at French supermarkets

BleepingComputer - 12 October 2026 12:23

Attackers remotely defrosted refrigerators at multiple French supermarket chains overnight in a cyberattack that reportedly targeted Danfoss refrigeration controllers. [...]

Retail giant Ahold Delhaize takes systems offline after cyberattack

BleepingComputer - 12 October 2026 10:51

Retail giant Ahold Delhaize, one of the world's largest food retail chains, confirmed today that it had to take some systems offline in response to a "cybersecurity incident" affecting its network. [...]

Imagine there's no Shiny Hunters – AI could make human hacking crews obsolete

The Register - 12 October 2026 13:27

This week on The Kettle, we discuss some arrests and how Mythos' mathematical expertise has led to a second exploited bug that no human would have found
